

DIRECT PIPE[®] SERVICES

TOTAL TRENCHLESS SOLUTIONS FOR HORIZONTAL DIRECTIONAL DRILLING AND DIRECT PIPE®

Mears Group, Inc. has a long standing record as a leading contractor in the Horizontal Directional Drilling (HDD) industry. We have now expanded our services with new investments in Direct Pipe® (DP) equipment and personnel, allowing us to provide total trenchless solutions for HDD and DP clients in the oil and gas, electrical, and water/wastewater industries.

The commitment of our management, engineers, and project team to operational excellence is supported by our ISO certified safety, quality, and environmental management systems and our specialized training facilities. Further, Mears is proud to be part of a professional network of specialized construction services under Quanta Services, Inc., a Fortune 500 company, which has been recognized by ENR as the #1 Specialty Contractor in North America for the past three consecutive years.

DIRECT PIPE® SERVICES

To complement our Horizontal Directional Drilling services, we now offer Direct Pipe® services to our clients, combining the advantages of both micro-tunneling and HDD.

Direct Pipe® benefits include:

- One pass installation of product or casing pipe
- Highly accurate guidance system
- Surface to surface pipeline installation
- Lower risk of hydraulic fracture (inadvertent returns)
- Minimal work space – jobsite equipment is located on one side of the crossing
- Installation at shallower depth and reduced crossing length

DIRECT PIPE® EQUIPMENT CAPABILITIES:

- 500 and 750 ton Pipe Thruster
- Micro-Tunnel Boring Machines (MTBM's)
30 to 60 inch diameter capabilities

MEARS HDD/DIRECT PIPE® TEAM

Our team includes some of the most experienced HDD and Direct Pipe® managers, engineers, environmental experts, and operators in the industry. Combining our HDD experts with team members on the leading edge of Direct Pipe technology, we are providing a wider range of innovative solutions to our clients than ever before, backed by years of industry experience.

DESIGN/BUILD, EPC & QUANTA CAPITAL

Mears can provide a truly turnkey approach. Taking into account a number of factors – budget, schedule, project complexity, risk management, and project goals – we offer clients a choice of project delivery methods to achieve the best strategic solution.

Backed by Quanta Capital Solutions, provider of financial support to EPC and construction clients, Mears can offer project financing for new capital projects.
